

# TEAM TEACH READY TO TAKE THE NEXT STEP?

The Newham Nursery Schools can offer Early Years Team Teach training for the staff at your setting delivered by EYFS trained staff.

Direct from Team Teach: “A toolkit of holistic strategies on de-escalation and crisis intervention, both verbal and non-verbal for supporting and reducing instances of disruptive and distressed behaviours.

This course will equip individuals with an understanding of the values and philosophy of the Team Teach approach to behaviour support. We are motivated by the need to support the individual with the aim of keeping those who have become distressed safe, as well as those around them.

We believe that all behaviour is communication being driven by experiences and emotions. We deliver a toolkit approach that is 95% understanding behaviours and encouraging de-escalation. The 5% assesses the need for physical intervention in conjunction with a need's analysis.”

***Contact us to find out more about group sizes and rates and how we can make team teach training work for you! All our trainers are Early Years practitioners so truly understand the needs and complexities of working with children in the Early Years.***
